

2008 Revised Version

CHOOSING THE RIGHT SCHOOL FOR YOUR CHILD Revised 2008

Brandi Roth, Ph.D. and Fay Van Der Kar-Levinson, Ph.D. are psychologists, educators and consultants. The revised and updated edition of their book *Choosing the Right School for Your Child*, is a nationwide guide and workbook for families making choices about elementary, middle and secondary schools for their children. Their companion book is *Secrets to School Success, Guiding Your Child Through a Joyous Learning Experience*. Their books provide practical tools to encourage families to have an effective and successful school experience. Dr. Roth and Dr. Van Der Kar-Levinson are experts in guiding and supporting families through the complex process of choosing a public or private school. Their book will help you to:

- Learn which kinds of public or private schools are best suited to your child's needs
- Gain insight into your child's learning style and find the most appropriate school match
- Make your way through the maze of school tours, applications and interviews
- Tour schools with the evaluation forms provided

"You will read and reread *Choosing the Right School for Your Child*. This is an exceedingly useful book for parents who want to choose the school that is most suited to their child's learning style. Dr. Roth and Dr. Van Der Kar-Levinson each have over 30 years of experience assisting families in finding schools that exhibit the highest quality education. We highly endorse their work in the field, and we recommend this unique book for its focus on the needs of all children and their parents."

William Glasser, M.D., Founder of the William Glasser Institute

Author of over 20 books, including *Choice Theory, Reality Therapy and Every Student Can Succeed*

Carleen Glasser, M.A., Senior Faculty Member, William Glasser Institute

Author of over six books, including *Language of Choice Theory* and *Class Meetings in Choice Theory*

"Choosing the Right School for Your Child is chock-full of interesting case studies and hints. This book provides a step-by-step guide to help parents through the difficult, and often emotionally-charged, process of selecting the 'right' school for their child. Charts and questionnaires help parents deal with the nuts and bolts of collecting and using information about their own philosophy, their child's needs, and the appropriateness of various schools. The authors demystify and make manageable parents' responsibilities as they relate to applications, interviews, and acceptances—or rejections. This book is a must for parents who intend to optimize their child's education."

Geraldine Markel, Ph.D., Professor and Psychologist, University of Michigan, School of Education

Author of *Defeating the Demons of Distraction: Increasing Productivity and Decreasing Stress*

Co-author of *Helping Adolescents with ADHD and/or Learning Disabilities* and

Performance Breakthroughs for Adolescents with ADD and/or Learning Disabilities
